MY PHILOSOPHY

## ABOUT

My parents are from southern Laos, in the area between Pakse and the Four Thousand Islands.

I was born in Vientiane, Laos, and at the age of seven immigrated to America through the political refugee program.

A local politician, from Seattle, Washington sponsored by family's transition into America.

I received a Bachelor of Science degree from the University of Washington, specializing in Science Writing.

After deciding that I wanted to go into the fashion industry. I went on to receive an MFA in Fashion Design from the Academy of Art University in San Francisco, California.

When I am not busy constructing pieces for fashion shows, I enjoy kayaking, climbing, skiing and the company of my family.
